Response from Luton and Dunstable University Hospital

During the period 1st February – 30th November 202 patients had a direct cause of death of Covid 19 or Covid 19 Pneumonia.

How many people have died in your hospitals from Covid 19 alone? As in they died only due to covid 19. I can see the figures that you publish online, but these are deaths within 28 days of a positive covid test, so they could have died from other causes. I just want to know the exact figure from 1st February 2020 until the 30th November 2020 of people that have died due to covid-19 and not anything else please.
