# Equestrian Incidents attended in 2017

In 2017 the East Anglian Air Ambulance (EAAA) treated 40 patients who had been involved in an equestrian related incident.

Fig below shows the injury regions of those 40 patients. Some of the patients sustained multiple injuries, 2 patients had no recorded injuries.

Fig

EAAA are tasked to equestrian related incidents due to the logistical challenges and inaccessible locations, as well as the clinical need for critical care support.
