

# Vision Statement

“The L&D is committed to delivering the best patient care, the best clinical knowledge and expertise and the best technology available and with kindness and understanding from all our staff”

That vision has informed the hospital of what the L&D is and will continue to be during the next five years. Constantly striving to improve Clinical Outcome, Patient Safety and Patient Experience is at the heart of everything we do.

Our vision is based on an understanding that patients will choose to receive acute hospital care from organisations that deliver:

- the best clinical outcome
- a reputation for providing safe care
- high quality care
- care and diagnostics at the time of need
