

## Mobile Resources

You will need a Luton and Dunstable Athens account. Ask the Library staff for assistance or self-register from <https://openathens.nice.org.uk/>

**BNF**  
**NHS Evidence**  
**BMJ Best Practice**  
**Clinical Knowledge Summaries (CKS)**  
**NICE Guidance**

**What is BNF?** BNF provides up-to-date information about the selection and clinical use of medicines.

**How do I access BNF?** Using your smartphone visit the BNF mobile website:  
<http://bnf.org/bnf/>

**What is NHS Evidence?** NHS evidence provides free access to clinical and non-clinical information - local, regional national and international. It includes evidence, guidance and Government policy.

**How do I access NHS Evidence?** Using your smartphone visit the NHS Evidence Mobile website: <http://m.evidence.nhs.uk/>

**What is BMJ Best Practice?** Best Practice is a Point-of-Care tool from BMJ Evidence Centre designed to support clinicians in their decision making from diagnosis to treatment

**How do I access Best Practice?** To find out more visit the website:  
<http://bestpractice.bmj.com/best-practice/marketing/best-practice-app.htm>

**What is CKS?** NHS Clinical Knowledge Summaries - CKS (formerly PRODIGY) is a source of evidence based information and practical "know how" about common conditions aimed at healthcare professionals working in primary care.

**How do I access CKS?** Using your smartphone visit the CKS Mobile website:  
<http://www.cks.nhs.uk/mobile>

**What is NICE Guidance?** NICE clinical **guidelines** are systematically-developed recommendations on how healthcare and other professionals should care for people with specific conditions. The recommendations are based on the best available evidence.

**How do I access NICE Guidance?** Using your smartphone visit the website:  
<https://www.nice.org.uk/guidance>

Delivering the best patient care, the best  
clinical knowledge and the best technology
